INSTRUCTIONS FOR NEW V2 COMPETITION STRAP

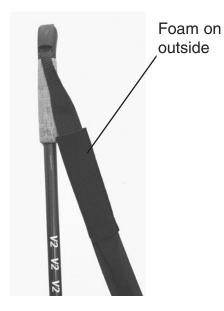

- **1-** Pull the strap up and out of the grip as if you were adjusting the length of the strap, then pull the **bottom** strap out of the grip.
- **2-** Place the Competition strap over the standard strap as shown in Fig.2. **Note!** When viewed as in Fig.2 the foam padding should be facing out and the Velcro should be on the inside.
- **3-** Next thread the loose end of the standard strap back into the grip making sure that it is placed in a manner so that when your hand is placed in the strap the straps coming out of the grip fold flat. See fig. 3.
- 4- Adjust the Comp Strap so the foam cushion is in the most comfortable position.

Sliding the Comp strap over the loose end of the standard

Standard Strap

flat when your hand is in the grip

Straps should fold
