

MAINE

Biddeford: My favorite place to roller ski is route 9 from Biddeford towards Kennebunk. Nice wide shoulders, good pavement, not many hills, but long straightaways. There are only a few intersections you have to deal with. I start at the University of New England and head south. Have fun! *-Bill Acton*

Stockholm / Guerette: Start in Stockholm, go out Lake St. to Rt 161. Then head North toward Guerette on 161 The next 9-10 miles features paved shoulders, rolling terrain and views of Madawaska Lake. Traffic is sparse early in the morning, but you have to watch for moose and an occasional bear or fox. Today 7 / 3 / 99 I skied past two moose feeding by the side of the road. *-Robert Sprague*
